Marnie Downey M.Sc., CCPE, CK
President

Marnie has earned a solid reputation as an expert in the field of Occupational Biomechanics & Ergonomics. Marnie is a certified Canadian Professional Ergonomist with over 15 years of ergonomic assessment and design experience. She has solved diverse ergonomic challenges for hundreds of companies in a variety of industries in Canada, United States and Mexico. Her energetic personality provides a motivational training atmosphere for management & employees.

Alexandra Stinson B.Sc., CK
Manager

Alexandra has over 10 years of hands-on experience in Ergonomic Program Development, Ergonomic Assessment, Hazard Analysis and job accommodation in manufacturing, mining & office environments, working closely with management, employees, Healthcare Professionals & Engineers. Alexandra is accomplished at conducting & developing customized Post Offer Pre-employment Screening, Fitness, Wellness & Warm-up / Stretching Programs, job rotations and safe work schedules.

Sarah Snable B.Sc., CK, AE
Consultant

Sarah has assessed and implemented ergonomic strategies to reduce injuries and improve workplace design in patient care, offices, laboratories, material handling, housekeeping, libraries and food services. Sarah was responsible for coordinating a Musculoskeletal Disorder Prevention Program for several hospitals, which included designing and presenting interactive education sessions. At Toyota, Sarah conducted Physical Demands Analyses and supported ergonomic concern investigations. Sarah is currently pursuing her diploma in Occupational Health & Safety.

Jennifer McGillis M.Sc., CK
Consultant

Jennifer has assessed and redesigned a variety of workstations, including multi-screen computer workstations, libraries, bakeries, bicycle repair and mailing stations. She has completed hands-on projects in Methods Time Management, Postural Sampling and Occupational Safety Engineering, including a 4-month Safety Audit of an industrial company. Jennifer has developed effective teaching techniques as a Professor of Lifestyle Management at Georgian College. As a result, she is a dynamic speaker who specializes in providing informative and interactive Ergonomic Training Sessions.

CLIENTS

WHY ERGONOMICS

Musculoskeletal disorders (MSDs) not only hurt workers, but also corporate bottom lines. The average lost time injury costs more than \$98,000. MSDs account for nearly 50% of all lost time days, but can be alleviated with the implementation of appropriate ergonomic strategies

CUSTOMER QUOTES

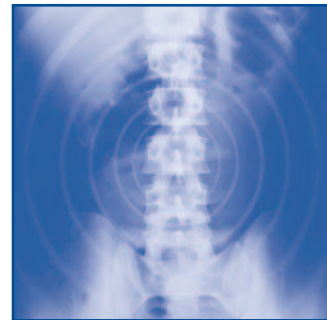

"Excellent in all areas...from communication to professionalism, to caring to very helpful."

Brenda Oerton, R.N.,
Supervisor Health Services, Baxter Corporation

"I appreciate when a contractor comes into our business unit to do a specific task, notices a significant hazard and reports it before leaving - great professional ethics. I'm impressed with your service and skills."

Jon Harper, Health & Safety Manager,
Algonquin Automotive

"Very informative course. Exceeded my expectations. Instructor was very knowledgeable, professional and approachable."

Rod Stevenson, Member JHSC,
Bombardier Aerospace
